- 1 dinner in a tropical garden
- + Airport transfer in a Jeep A2 Military

## Pick up Jeep 1972 A2 Military- Tonle Sap Biosphere Reserve- Flooded Forest by Canoe- Dinner in a tropical garden

Once you've spent a few days exploring the temples of Angkor and you are ready for some time out we have the perfect antidote for you **aboard our motor boat**. Explore the nearby lake of Tonle Sap visiting the floating and stilted villages of Chong Kneas and Kompong Phluk and discover the varied plant, fish and bird life that make this huge inland lake such a valuable ecosystem to Cambodia and southeast asia. More than 100 varieties of waterbirds including several threatened and endangered species, over 200 species of fish, as well as crocodiles, turtles, macaques, otter and other wildlife inhabit the inundated mangrove forests. 1997, it was successfully nominated as a **UNESCO Biosphere Reserve**.

Transfer by car to a small village on the Mekong River near the Laos border. From there we will begin a **kayaking trip** down river through **remote flooded forests** of Cambodia's amazing and unique Ramsar Wetlands. A boat will provide backup. We will see an abundance of birdlife as we kayak. We will return to our Stung Treng accommodations in the late afternoon.

Delight in Siem Reaps iconic and long established Khmer Restaurant . We will offer you the best of an authentic **Cambodian cuisine mixed with Thai and Chinese influences** while pampering guests in a cozy traditional wooden house surrounded by lush tropical gardens. This is the perfect place for a romantic dinner, relaxed cocktails or social gathering. Located away from the hustle and bustle of Pub Street.
